

Greetings ZED families,

August 24, 2021

ZED has partnered with Olmsted County Public Health (OCPH) to offer a **free Pfizer vaccine clinic on Monday, August 30th at our ZED school sites**. As you know the Pfizer vaccine was fully approved by the FDA recently. This clinic will be available to any ZED students 12 years and older as well as any family members over the age of twelve. As you know, the vaccine is the best tool against the pandemic and ZED wants to offer every opportunity for our students/families to get vaccinated. This clinic will be during our family/teacher conferences that day. Students can choose either location to attend as follows:

Monday August, 30th

9:30-11:30am @ ZED ALC (located at 630 1st Ave. NW in Byron)

OR

12:30pm-3:00pm @ ZED South Campus (located at 221 2nd Ave. SW in Byron)

Families must pre-register their students/family members for one of these clinics using the online registration below. Any students or family members ages 12-17 must have parental consent (which is included in the online registration). Parents/guardians are welcome to accompany their students. Also the second dose will be on **September 20th** so you should ensure availability for that date as well. All ZED South Campus, ALC and T2Success students/family members that are not currently vaccinated are welcome to this opportunity.

The online registration links are below for the specific sites. Please note that each vaccine site has a different password and you will be able to choose a specific appointment time. You will be scheduling both your first and second dose; appointments are limited so rescheduling will be difficult.

To pre-register for the vaccine clinic at the ALC site between 9:30am-11:30am on 8/30/21 click here:

[Olmsted County Vaccine Clinic at ZED ALC](#)

Password: ZED1

To pre-register for the vaccine clinic at the ZED South Campus site between 12:30pm-3pm on 8/30/21 click here: [Olmsted County Vaccine Clinic at ZED South](#)

Password: ZED2

Some helpful hints when pre-registering using the link is that each person registers with a separate device when possible (cell phone, tablet, computer, etc.) in a separate browser session. Also Chrome and Microsoft Edge are the recommended browsers. Please don't hesitate to contact me if you have any further questions. If you have transportation needs for these vaccine clinics, please contact your program and we can make arrangements.

Sincerely,

Patrick Gordon

ZED Executive Director/COVID Coordinator
