

Everyone. Anywhere.

Get your flu vaccine.

The flu vaccine is recommended, now more than ever, for people age six months and older. A rough flu season during the ongoing COVID-19 pandemic could cause serious issues for our communities, further reduce school attendance and stretch health care availability.

Due to COVID-19, the school based flu vaccine program will not be available this year. However, community healthcare organizations and local pharmacies are working together to ensure the flu vaccine is available to everyone, anywhere.

GET YOUR 2020 FLU VACCINE NOW AT ONE OF THESE LOCAL SITES:

- **Mayo Clinic** | Appointments required. Scheduling opens September 28, login to [Patient Online Services](#) or call your [Primary Care Provider](#).
- **Olmsted Medical Center** | Patients may schedule with their [Primary Care Provider](#). [Drive-thru flu immunization](#) available (no appointment required).
- [Olmsted County Public Health](#)
- **Your local participating pharmacy**
