

Keys to Providing Effective Language Instruction Educational Programs

FREE

WORKSHOPS

See dates, times and
locations listed below

Workshop Overview:

All districts enrolling students with English learner status must provide an effective educational program that allows students access to challenging, grade-level academic standards. Language instruction educational programs (LIEPs) are required both in federal statute of the Every Student Succeeds Act (ESSA) and in state statute. In this day-long workshop, districts and charters will learn about these requirements as well as best practices around programming in an LIEP. Participants will have opportunities to network and receive feedback on their programming practices.

Offered by the Minnesota Department of Education:

Julie Chi, English Learner Education Specialist and Compliance Monitor, Equity and Opportunity Division

Amy Young, English Learner Education Specialist, School Support Division

Workshop Dates

Register below:

At MDE: [January 31](#), [April 15](#), and [May 8, 2020](#)

In Greater Minnesota: [January 10](#) (Mankato), [March 18](#) (Byron), [April 17](#) (Fergus Falls), [April 28](#) (Sartell), [May 19](#) (Willmar), 2020

Anticipated outcomes:

- Leverage students' linguistic and cultural assets
- Understand state and federal requirements
- Leverage funding and coordinate resources
- Assess student needs
- Provide programming to develop language proficiency and academic achievement
- Evaluate program effectiveness
- Identify program models that address diverse learners' needs
- Ensure equitable educational opportunities
- Expand family engagement strategies
